Dear Town Center Business Owner:

The Town of Winchester has received a grant to add a "fish ladder" to the Center Falls Dam on Main Street. The installation of the fish ladder will allow for herring, a native fish to the Mystic and Aberjona watershed, to once again navigate the upper levels of the Aberjona River.

The project is a collaborative river restoration effort among the Town, companies charged with cleaning up the Aberjona watershed, and the Division of Marine Fisheries for Massachusetts. The project was spearheaded by concerned Winchester residents who have advocated for a healthy river environment. The project will include features for monitoring fish migration on site and remotely.

The project is set to begin on **Monday, October 24<sup>th</sup> and will continue for approximately six to eight weeks (6-8 weeks)**. It will result in the loss of parking on one side of the bridge from the corner of Converse Place to the Mystic Valley Parkway during this period. We will work with the contractor to minimize the inconvenience to nearby businesses.

Thank you for your patience and understanding as we work to make the Aberjona River a safe and environmentally interesting amenity for the Town Center area. If you have any concerns, please feel free to contact me at 781-721-7133 or [rhoward@winchester.us](mailto:rhoward@winchester.us).

Very truly yours,

  
Richard C. Howard,  
Town Manager
