

345-kV Underground Transmission Project

Virtual Neighborhood Meeting on August 2, 2023

Project Overview

Eversource is building a new 345 kilovolt (kV) underground transmission line in Winchester, Woburn and Stoneham to address the growing need for electricity in the area. This project includes a new 345-kV underground transmission line that connect Eversource's Woburn Substation and National Grid's Wakefield Junction Substation.

The line extends 8.5 miles between two existing substations, passing through Woburn, Winchester, Stoneham and Wakefield. The project also includes improvements within the existing fence lines of the Woburn and Wakefield substations.

Neighborhood Project Update Meeting

Eversource will be hosting a virtual neighborhood meeting via Zoom for people in Winchester to learn more about active construction activities on Cross Street in Winchester on Wednesday, August 2, 2023 starting at 6 p.m. Staff from Eversource, and its contractor McCourt Construction, will be on the line to answer questions and discuss the schedule for the remainder of 2023. If you would like to attend, please RSVP by sending a note to miles.lang-kennedy@eversource.com.
