

Lisa Wong

Experienced leader in municipal government, economic development

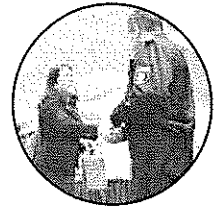

Winchester is an amazing community and I would love to join the team of dedicated staff and public officials.

From building housing to improving education, increasing bond ratings to balancing budgets, my approach is inclusive, comprehensive and forward-thinking. I am proud of my work conserving land, supporting businesses, cutting health insurance costs, advocating for immigrants, creating sound public policies, and strengthening municipal finances. The future is complex and the opportunities are numerous - I want to help Winchester thrive, innovate and inspire the next generation as the next Town Manager!
