Many Winchester fields and recreation areas are in residential neighborhoods. Permit holders are responsible for ensuring that their participants and fans are respecting surrounding neighborhoods by keeping the areas clean of debris by using trash receptacles or carrying in carrying out garbage, utilizing proper restroom facilities and following posted parking regulations.

FIELD CLOSINGS FOR AN EXTENDED PERIOD OF TIME (MORE THAN ONE DAY)

The Department of Public Works and Recreation Department may determine that a field is closed to all users. These conditions include field under water, severe damages that make it unsafe/unplayable, field reconstruction and the need to rest fields. Information on field closings can be accessed by the recreation's website, www.winrec.com, and will be communicated to league presidents and athletic directors. It is the responsibility of league presidents and athletic directors to notify their coaches and players of field closings.

FIELD CLOSINGS DUE TO INCLEMENT WEATHER (SAME DAY)

The Recreation Department, working with the DPW makes every effort to close fields when necessary, however, due to unpredictable weather conditions and the different effects the weather has on various fields, it's up to each individual organization to determine if a field is playable for a practice or a game. If an organization determines that a field is unplayable on a particular day, it is the responsibility of league presidents and athletic directors to notify their coaches and players and send an email or phone message to the Recreation Director. Organizations must have a Fields Coordinator who is the liaison to the Recreation Department and who is appointed to make weather related decisions in the absence of Recreation guidance (weekends, unanticipated weather event).

Conditions which league liaisons must consider in closing fields

Standing water or puddles on the field
One inch or more of rain in a 24-hour period*
Ground is waterlogged and squishy
Footsteps leave imprints
Grass is easily removed with a cleat
Grass is easily pulled from the ground
Heavy rain or downpour

**This is a general rule; however, there may be times that less rainfall could render the fields unplayable and conditions when more rainfall could be tolerated.*

Consequences: Failure to adhere to this policy may result in a league or team forfeiting their field permit for the remainder of the season, incurring a field repair fee*, and/or loss of permit for the following season.

**Determined by Field Management Committee*

MAKE-UP DATES

Should be handled by each league president or Athletic Director using his or her existing permits. Requests may be made for additional permits for make-ups if they cannot be accommodated within their existing permits. Winchester Recreation will make a concerted effort to find available field space.

The Field Policy and Fees will be reviewed annually after the first year by the Field Management Committee.
